

## U. S. PROMISES TO INVESTIGATE FOR MEXICO

(Continued From Page One.)

but upon receiving a refusal of their demands, the students dispersed. Governor Landis is quoted as having told the students' committee that their classmates had acted like hoodlums and were incommunicado.

"You may not even speak to them," he said. "I have notified the directors of each school that any attempt to make a demonstration of any kind will be put down energetically. The police have orders to shoot if their first command is not obeyed."

**Diaz Takes a Hand.**  
As Landis watched some of the demonstrations of the day before and even made a speech to some of the demonstrators, his sudden change of attitude is accredited to orders from "higher up," which could only mean President Diaz, who intends to see order prevail not only because of his friendly feeling for the United States, but because he wishes to show the Mexicans that disorders of any kind will not be tolerated. If these were permitted at present, it is said, some of the anti-Diaz men might attempt demonstrations.

An attempt by demonstrators to gather late yesterday afternoon in the neighborhood of the National theater was prevented by the mounted police, who kept the crowds moving.

**Creel Sees Wilson.**  
The foreign office has assured ambassador Wilson that there will be no repetition of the rioting.

Strict orders have been given the police, minister Creel says, to prevent, by vigorous measures, if necessary, gatherings in the streets.

**To Suppress Papers.**

Assurances also were given that several newspapers whose utterances have incited the demonstration which developed into riots, will be suppressed. One of the latter, El Pais, has printed a suggestion for a boycott throughout the republic. Another, El Diario del Hogar, published a cartoon depicting the Mexican people clubbing Uncle Sam, while in the background was pictured the burning of Rodriguez at Rock Springs, Tex.

These papers are of limited circulation and ordinarily wield but small influence.

**BOTH MEXICO AND THE U. S. MUST APOLOGIZE**

Washington, D. C., Nov. 11.—The governments of Mexico and the United States are in this position:  
If the state department here finds that ambassador Wilson's reports are justified, a polite request must be made on Mexico for an expression of regret for the demonstration which also suitable reparation if any damage has been suffered by Americans.

On the other hand the Mexican government must look to the state department for a similar expression and reparation in the case of Antonio Rodriguez, the Mexican who was burned at the stake by a mob of Texans at Rock Springs.

**Knox Makes Statement.**

Secretary Knox, while deploring the situation in Mexico, believes it is not representative of the real attitude of the American and Mexican people. In a formal statement he says:  
"The manifestations of resentment towards Americans reported from Mexico is the cause of deep regret to the executive government and equally so, I am sure, to the American people."

At no time have the governments and people of the two countries sustained towards each other closer and more cordial relations, predicted upon common purposes and sympathies, than now.

"It is most unfortunate that the brutal crime in our country, of which a Mexican was the victim, should be made the excuse for a demonstration of hostility towards Americans in Mexico."

"I am sure the Mexican government will be swift to put down all hostile demonstrations against Americans in Mexico and to punish those engaged in them as this government will be prompt to press for the punishment of persons guilty of crimes against citizens of Mexico residing in this country."

**CAMPBELL PROMISES THAT OFFICIALS WILL INVESTIGATE**  
Austin, Tex., Nov. 11.—Governor Campbell this morning received a message from secretary of state Knox, saying the United States consul and vice consul at Las Vacas, Mexico, desired to conduct an investigation of the burning to death of the Mexican, Antonio Rodriguez, at Rock Springs, which caused the riots in Mexico. Knox says these officials desire complete protection during the investigation and secretary Bowman wired Knox that this would be afforded.

**URGES FEDERAL LAW TO PROSECUTE MOBS**

Fort Worth, Tex., Nov. 11.—William H. Atwell, United States attorney, of Dallas who is here today has issued a written statement urging the enactment of the federal law providing for the prosecution of mobs.

He points out that the federal government cannot take any action regarding the burning of a Mexican at Rock Springs, a few days ago, although the Mexican government holds the United States, not Texas, responsible.

He also referred to the Italian massacre at New Orleans and the Japanese assaults in California as instances where the federal government could not interfere although blamed and forced to pay indemnity in the New Orleans case. He said that such a law would avoid wars and could readily be passed by the next congress.

**NO ANTI-AMERICAN FEELING IN JUAREZ**

There is no anti-American feeling in Juarez, or at least none has been demonstrated. There has not been a word spoken against the "gringos" in the border city and everything is quiet and serene there.

No advice has been received by the Mexican officials of the reported uprising in Mexico City, where the American flag is reported to have been torn to shreds and spat upon by angry Mexicans.

American consul Edwards says that

**SENTIMENT IN DEL RIO IS WITH MOB, SAY RAILROAD MEN**

Railroad men from Del Rio say that the feeling there regarding the burning at the stake of Antonio Rodriguez, who killed Mrs. Lem Anderson at Rock Springs, Texas, is entirely in favor of the action that was taken by the mob. Rodriguez, according to the railroad men, killed Mrs. Anderson in cold blood, without the least provocation. He is said to have confessed to the crime, stating that the only reason that he committed the murder was that Mrs. Anderson had talked harshly to him.

## DISAPPEARANCE IS MYSTERIOUS

**Globe Man Missing for Months, and Wife Is Detained at Globe.**

Globe, Ariz., Nov. 11.—The mysterious disappearance of James Thorpe, a resident of Miami, is being investigated by the local authorities and, as the first step toward clearing up the mystery, U. S. constable R. E. Williams has arrested Mrs. Rena Thorpe, wife of the missing man, and William White. Both are now lodged in the county jail at Globe, pending examination.

Thorpe was formerly a ranchman and saloonkeeper of Miami, but sold his saloon about eight months ago and went to live on the Sixty-six ranch, which he owned. The ranch is located several miles south of Globe. Nothing is known of him since that time. It is said that since Thorpe's disappearance, his wife's father has located the ranch which he owned.

It has come to light through letters from Thorpe's mother in Spokane, Wash., that for eight months, or since the time of his disappearance from Miami, she has not received any news of him, although hitherto he had been a very regular correspondent.

Mrs. Thorpe claims that she has received letters from her husband since he left her.

## Men Old at 35

**One Million Baldheads Who Thought Dandruff Wasn't Dangerous.**

In the United States and Canada today there are nearly a million men who at 35 can be put in the baldhead class. When these men had thick vigorous hair, dandruff made its appearance.

That was the time to attack the enemy of mankind—the persistent little dandruff microbe, or germ that burrows deep down into the hair root and saps it of the vitality that is so essential. Young men or any man, for that matter, beware of the dandruff germ; it is not a theory, but an actual condition that confronts you. That dandruff is caused by a germ, is proved beyond question. That this germ destroys the hair root is today a matter of common knowledge.

Kelly & Pollard the druggists, have the remedy that kills the dandruff germ. They guarantee it to eradicate dandruff, stop falling hair and itching scalp in two weeks, or money back. It is called PARISIAN SAGE, and can be obtained at druggists in every town in America—ask Kelly & Pollard for it. The girl with the Auburn hair is on every bottle.

according to present plans, Blankenship is to have the money to defend his case.

Blankenship, who was a carnival employee, confessed Wednesday night to A. S. Lillard, another carnival employee, that he had shot and killed Oscar Waller, at Louisville, Ky., on March 31, last.

Lillard telegraphed Kentucky officers at Louisville that he would return Blankenship and asked to be deputized.

Lillard will give the reward to Blankenship to use to defend his case. Blankenship states he shot Waller following a quarrel.
